WORKING PAPER

DT-S

SG1A

MEMO FOR: DCSINT (PO)

SUBJECT: SUN STREAK Interim Report - 9007-II (Call Signs) (U)

1. (C/STD) A copy of Page 3, Case Number JTF004-90, entitled,
with a listing of call signs, attached as a reference for your use.

SG1A prompted the perception of a 50 to 70 foot, US-flagged luxury cruiser. On O31210 MAR 90, the vessel appeared located north northeast of Brazil at geographical coordinates 10 O0 N / 32 10 W. It was en-route to Fort Meyers, Florida where it is will unload "white contraband" (illegal drugs).

3. (C/STD) According to Viewer 032, Call Sign, appeared associated with a yatch measuring about 50 to 60 feet in length and capable of operating in open seas for an extended period of time. Auxiliary fuel tanks aboard ship facilitate lengthy stays at sea. The names "Martinez" and "Sanchez" surfaced phonetically as being associated with the vessel. On 27 1100 MAR 90, the vessel was located about 100 miles east of Tobago at geographical coordinates 11 N / 60 W; it was en-route to its destination at a site identified as about 50 miles east of New Castle, New Brunswick, Canada, at geographical coordinates 47 N / 65 W.
